Coffee Matching was one of the first speed-dating services to launch in Hong Kong. Become a member and join one of the several monthly events held across town. There are always an equal number of men and women and you're allowed seven minutes to speak to each person in the room. Hop on the expressway to love!

**FYI**

In Japan, Valentine's celebrations are spread over an entire month. On February 14, women hand out chocolates and gifts. On March 14, known as "White Day," Japanese men return the favor.
